

# IMS2017 STUDENT AND TEACHER EXPERIENCE

## SCIENCE, TECHNOLOGY, ENGINEERING & MATH

### THURSDAY, 8 JUNE 2017 | EXHIBIT FLOOR

The STEM Student Experience consists of a full day of fun and exciting educational activities centered around the latest in wireless science and technology. On this focus day, students will participate in demonstrations and guided tours that provide an intimate look at the RF and microwave infrastructure which enable today's technological innovation.

This is a very exciting time in which technology is transforming how people view and interact with the world. By investing in the young students of today, we are building a bright future of STEM for future generations.
